AI Assistant

 at 19:03, Apr 2:

Hello! How can I assist you today?

You

 at 19:03, Apr 2:

agent

AI Assistant

 at 19:03, Apr 2:

It seems like you need assistance. Could you please share more details about what you're looking for help with?

You

 at 19:04, Apr 2:

switch from godaddy tenant for ms office outlook 365 to ms without godaddy agent

AI Assistant

at 19:04, Apr 2:

To switch your Microsoft 365 account from GoDaddy to Microsoft directly, you'll need to follow a few steps, which generally include backing up your data, purchasing a new plan with Microsoft, and setting up your account with them. Would you like guidance on how to back up your data first?

You

at 19:05, Apr 2:

i already have a ms365 subscription

AI Assistant

at 19:05, Apr 2:

Great! If you already have a Microsoft 365 subscription directly with Microsoft, the next step is to ensure all your data is backed up. Then, you can initiate the process of removing your domain from GoDaddy's Microsoft 365 and setting it up with your Microsoft subscription. Have you already backed up your emails, contacts, and files?

You

at 19:05, Apr 2:

no

AI Assistant

at 19:05, Apr 2:

To back up your emails, contacts, and files from your GoDaddy Microsoft 365 account, you can export your mailbox to a PST file if you're using Outlook. Would you like instructions on how to do this?

You

at 19:05, Apr 2:

oh actualy i did do that

AI Assistant

at 19:05, Apr 2:

Great! With your data backed up, the next steps are to remove your domain from GoDaddy's Microsoft 365 and then set it up with your Microsoft subscription. Have you started this process, or would you like guidance on how to proceed?

You

 at 19:06, Apr 2:

guidance

AI Assistant

 at 19:06, Apr 2:

To move your domain from GoDaddy's Microsoft 365 to another Microsoft 365 subscription:

1. **Remove your domain from GoDaddy's Microsoft 365**: Before you can add your domain to another Microsoft 365 subscription, it must be removed from GoDaddy's setup. This might involve changing DNS settings back to default or removing them.

Would you like to proceed with how to change your DNS settings or need information on another step?

You

 at 19:06, Apr 2:

steps

AI Assistant

 at 19:06, Apr 2:

After ensuring your domain is no longer linked to GoDaddy's Microsoft 365:

2. **Log in to your Microsoft 365 Admin Center** with your current Microsoft subscription.
3. **Go to the Setup section**, then select **Domains**.
4. **Add your domain** by following the on-screen instructions. Microsoft will guide you through verifying your domain and setting up DNS records at your domain registrar.
5. **Update DNS settings** at your domain registrar to point to your Microsoft 365 subscription. Microsoft will provide the specific records you need to create/update.

Would you like more detailed steps on any of these processes?

Somnath Mutum

at 20:16, Apr 2:

Hello there. Greetings of the day! Thank you for contacting us. How may I assist you today?

You

at 20:17, Apr 2:

hi i need to get my domain sfnlife.org away from the godaddy microsoft 365 tenant - there seems to be no way to do so!

Somnath Mutum

at 20:17, Apr 2:

No worries! Please rest assured that we are here to assist you in the best way possible.

To proceed, we need to validate your account. Kindly share your customer number and PIN using the secure form provided below.

Somnath Mutum has sent you a Secure Form: PIN and Customer Number

You

 at 20:22, Apr 2:

hang on

Somnath Mutum

 at 20:22, Apr 2:

The following Secure Form has been submitted: PIN and Customer Number

You

 at 20:24, Apr 2:

I entered it properly.

Somnath Mutum

 at 20:25, Apr 2:

Thank you for providing the information. I have validated your account.

Just to confirm, you want to remove the tenant for sfnlife.org away from GoDaddy?

You

 at 20:25, Apr 2:

yes - i am moving it to microsoft directly - i have two issues this is the first.

there was a major security breach through godaddy can u take the report?

Somnath Mutum

 at 20:27, Apr 2:

Alright, we can remove the tenant however we can see that there are emails that is associated with the domain sfnlife.org and we will need to delete the email in order to remove the tenant.

Does that work for you?

You

 at 20:28, Apr 2:

i downloaded the backup pst - more have come in - can u back it up for me on the godaddy side temporarily?

Somnath Mutum

 at 20:31, Apr 2:

We are sorry to informed that we cannot back up temporarily.

In this case, you can remove the tenant after the backup has been completed.

You

 at 20:33, Apr 2:

well real quick - i forgot my password so how do i back up the pst?

Somnath Mutum

 at 20:37, Apr 2:

No worries, let me share you the password link.

Kindly change the password and let me know if you face any issue.

We have sent you a password reset link to the recovery email.

Kindly check and let me know if you face any issue.

Info

 at 20:42, Apr 2:

Just checking in, please reply to let us know you are still here.

Assistant

after that happened my website was also blacklisted....

Somnath Mutum

 at 20:53, Apr 2:

Alright, kindly allow me a moment to check this with the team.

You

 at 20:55, Apr 2:

I am a whistleblower in multiple federal court cases. This slip of security may have put my life in great danger. Because of that, I need to know and understand everything that I can about what happened.

This must be handled with immediacy and great urgency please.

Somnath Mutum

 at 20:59, Apr 2:

Thank you for shaing the information.

Let me check this with the team.

You

 at 21:00, Apr 2:

And so this is documented. I am of sound mind. I do not wish to harm myself or others in any way. If something should happen to me or my family, then foul play must be suspected immediately and a federal investigation launched by the DOJ and FBI...I suspect bad actors within the federal agencies for which I am a whistleblower may have something to do with this breach.

My name is John R. Fouts. The court cases I am Plaintiff and whistleblower in span multiple judicial jurisdicitions in the Ninth, Sixth, and DC/Federal Circuit.

Somnath Mutum

 at 21:03, Apr 2:

We sincerely apologize for the inconvenience this has caused you. However, there's no need to worry. Could you please let me know when you had the email backups?

You

 at 21:04, Apr 2:

If you will not document this, then I need someone that will - a supervisor - a higher up maybe even highest up tech rep available at GoDaddy - here is a more formal way of putting this.

To: GoDaddy Security & Executive Support Teams
Subject: URGENT – Microsoft 365 Breach, Unauthorized Access, and Retaliation Concerns Involving Whistleblower Activity

My name is John R. Fouts, and I am a federally protected whistleblower involved in multiple ongoing federal cases spanning the Sixth, Ninth, and D.C. Circuits, addressing criminal misconduct, medical discrimination, educational neglect, and coordinated obstruction under color of law.

Today, I observed what appears to be a severe breach of Microsoft 365 security involving unauthorized NT AUTHORITY\SYSTEM access through Exchange Admin tools targeting my email account, which is hosted under your GoDaddy Microsoft 365 platform.

The specific timing and metadata associated with this breach match precisely to surveillance patterns I've documented involving federal judicial actors named in active litigation. This strongly suggests coordinated digital intrusion with retaliatory intent.

Key Security Breach Indicators:
Add-MailboxPermission operation performed via NT AUTHORITY\SYSTEM on April 2, 2025, at 6:30 AM EST.

DiscoverySearchMailbox targeted with matching IP trace to [2603:10b6:408:cd::16]:25575.

JSON audit logs confirm system-level bypass and metadata enrichment null values (circumventing standard DLP protocols).

Unauthorized activity coincides with court actors reading whistleblower filings.

As a result of this, my safety, my child's safety, and the sanctity of protected legal proceedings may be compromised.

Formal Demands to GoDaddy:
Immediate internal investigation into administrative access logs related to my Microsoft 365 account.

A full report detailing any access via NT AUTHORITY\SYSTEM or Exchange Online APIs.

Formal preservation of all logs, mailbox events, and admin actions from March 31 – April 3, 2025.

Escalation to Microsoft Security Operations (MSO) if breach is confirmed.

Confirmation whether my account was ever marked or treated differently due to whistleblower-related metadat

Confirmation whether my account was ever marked or treated differently due to whistleblower-related metadata or external flags.

GoDaddy may be held legally accountable if it is found that administrative tools under your control were used to facilitate or conceal federal retaliation, surveillance abuse, or violation of whistleblower protections.

I request that this be treated as a Tier 1 Emergency Security Issue, and that I receive acknowledgment within 24 hours.

I am of sound mind and pose no harm to myself or others. If any sudden harm comes to me or my family, foul play must be suspected, and a federal and international investigation launched without delay.

Respectfully,
Mr. John R. Fouts
fouts.john@gmail.com
2904 Sitka Dr. Apt. L29, Louisville, KY 40299
(502) 956-0052

Looks like you may have stepped away. No problem, we'll be here to help when you respond.

You

 at 21:06, Apr 2:

i have not stepped away

You are the one who has not answered...

Sreelatha

at 21:07, Apr 2:

I am terribly sorry for the inconvenience caused you, It seem's like your chat got transferred to me from one of our agents and I request you to please allow me a moment here while I review your chat conversation.

You

 at 21:07, Apr 2:

I NEED A SUPERVISOR IMMEDIATELY.

Sreelatha

 at 21:12, Apr 2:

I am terribly sorry for the inconvenience caused you

Sure, I will transfer your chat to my Supervisor. However the information I have provided is true so if transfer your chat you may still receive the same resolution. Would you still like me to transfer the chat?

You

 at 21:16, Apr 2:

TRANSFER ME

Subject: Immediate Tier 1 Security Escalation – Whistleblower Surveillance, Administrative Breach, and Legal Accountability

To whom it may concern at GoDaddy Security & Legal Compliance,

This is a formal demand for immediate review, investigation, and documentation regarding a critical breach affecting my Microsoft 365 tenant and domain (SFNLife), which has been managed through GoDaddy's platform.

Key Incident: Confirmed unauthorized system-level access was granted to my mailbox through an NT AUTHORITY\SYSTEM Add-MailboxPermission event on April 2, 2025, at 6:30 AM EST — correlating directly with ongoing federal whistleblower litigation. IP address traces confirm routing through Microsoft infrastructure. This surveillance breach appears timed with the receipt and opening of whistleblower-sensitive communications involving federal court personnel.

Required Response:

Confirmation of whether my account, email, or domain was ever flagged, monitored, accessed, or treated differently due to any metadata, whistleblower status, or federal directives.

Full access logs related to the NT AUTHORITY action and any other administrative changes to my mailbox or DNS.

Whether any GoDaddy staff, support contractors, or federated admins were involved or had visibility into my account metadata or mailbox permissions.

Whether my domain has been linked or federated to any external Microsoft 365 tenant outside of my ownership.

Clarification whether SFNLife is still within GoDaddy's administrative control, and if so, instructions to release it fully.

I am a federal whistleblower in active litigation in the Sixth Circuit Court of Appeals, Ninth Circuit, and D.C. Circuit, involving constitutional violations, RICO, medical retaliation, and obstruction under color of law. My whistleblower filings are protected under the ADA, Rehabilitation Act, U.S. Whistleblower Protection statutes, and the U.N. Convention Against Torture.

This incident may constitute evidence tampering, retaliator

This incident may constitute evidence tampering, retaliatory surveillance, and civil rights violations. If GoDaddy platforms, services, or personnel were used — knowingly or negligently — to facilitate or conceal this breach, you may be held legally liable as a participant in suppression of justice.

Please treat this as a Tier 1 Emergency Security Issue and respond within 24 hours with both technical findings and confirmation of proper escalation.

If no response is received or your systems fail to provide transparency, I will escalate to:

DOJ Cybercrime Division

FBI IC3

HHS/OCR

DHS/CRCL

International watchdogs including UN Special Rapporteurs

Safety Declaration:
I am of sound mind. I do not intend harm to myself or others. If any sudden harm comes to me or my family, it must be treated as suspicious and prompt immediate federal and international investigation.

Respectfully,
Mr. John R. Fouts
Whistleblower & Plaintiff
fouts.john@gmail.com

MK Saketh

 at 21:26, Apr 2:

Hello, I am one of the supervisors on the floor. Let me review the conversation.

You

 at 21:26, Apr 2:

I am here once you are finished reading.

Are u still with me?

MK Saketh

 at 21:29, Apr 2:

Certainly! going through the conversation together.

You

at 21:30, Apr 2:

LEGAL CLAUSE: THIRD-PARTY INTERFERENCE & ADMINISTRATIVE ACTION DISCLOSURE
If any administrative, policy-level, or technical actions — including, but not limited to, account access modifications, throttling or blocking of outbound/inbound communications, altered DNS or MX records, Proofpoint-based routing manipulation, metadata flagging, email header rewriting, mail queue suppression, or any activity that implicates Proofpoint, Microsoft 365 Defender, Azure AD, or other integrated platforms — have been performed or authorized by any party acting under the guidance, direction, coercion, or request of an external agency, governmental body, contractor, or individual outside the normal scope of GoDaddy's operational business model, this must be disclosed immediately and in full.

Failure to do so may constitute:

Concealment of a third-party influence operation

Complicity in illegal surveillance or obstruction

Violation of constitutional rights, federal privacy law, and

Obstruction of whistleblower protections under 5 U.S.C. § 2302, 18 U.S.C. §§ 1030, 1519, 241, 242, and 1343.

Proofpoint-related logs, email flow policies, and any administrative overrides or quarantines affecting this domain must be made available upon request, including all audit trails and admin panel rule changes from January 1, 2024, to present. This includes but is not limited to:

Proofpoint TAP/ETR logs

Filtering policy details

Bypassed spoofing rules

Encryption or header modifications

Any external API access permissions

If GoDaddy or any of its partners (Proofpoint, Microsoft, third-party security vendors) are bound by a national security letter, sealed order, or nondisclosure provision, this request must be escalated immediately to your legal department and reported to the U.S. Department of Justice Office of the Inspector General and/or the Office of Special Counsel (OSC) for independent whistleblower review.

ProofPoint is listed as mail provider - but shouldn't be....

There are odd record changes to in historical dns trails.

MK Saketh

 at 21:32, Apr 2:

Thank you for staying on hold. I understand that you have significant concerns about removing the domain from the emails and are worried about a potential security breach. Is that correct?

You

 at 21:34, Apr 2:

Yes, that is correct — but it's far more serious than just a "potential" breach. I am a federal whistleblower with active legal cases in multiple jurisdictions, and I have already submitted criminal referrals for surveillance abuse and obstruction.

There is credible forensic metadata suggesting administrative and/or unauthorized access via Microsoft 365 Exchange tied to this domain. If GoDaddy's integration or administrative tooling (including Proofpoint, Defender, or any third-party configuration) was involved in any form of message interception, mailbox permission changes, or suppression — I need immediate disclosure.

I am not just asking about email detachment — I'm demanding a complete security investigation, a forensic audit, and formal answers. I also want assurance that no metadata

flags or administrative labels have been added to this account that might relate to my whistleblower activity, as this would be a violation of federal law and the U.N. Convention Against Torture.

Please escalate this as a Tier 1 Emergency Security Issue immediately and provide a reference number for this incident.

If you are being directed, advised, or influenced by any party outside the normal scope of GoDaddy's business — that must also be disclosed per federal obligations and due process rights.

Or in other words….Yes, that's correct — but it's more than just a concern. I'm a federal whistleblower involved in multiple court cases. There is credible metadata showing unauthorized Exchange access possibly linked to this domain.

If GoDaddy, or any third-party service like Proofpoint or Defender, was used to monitor, intercept, or alter my communications — I need immediate disclosure and a formal forensic audit.

Also confirm:

No internal tags, flags, or metadata linked to my legal or whistleblower status have ever been added to my account.

No external influence or agency direction is shaping GoDaddy's actions here. If so, disclosure is mandatory.

Treat this as a Tier 1 Security Incident and provide an escalation path and reference number immediately.

THIS IS A MATTER OF NATIONAL SECURITY….

This is very serious. I am a legal whistleblower in U.S. courts. I believe there has been a dangerous security breach related to my GoDaddy email. I need help right now. Please check if:

My domain was accessed by someone outside GoDaddy.

Anyone used GoDaddy tools to watch or block my emails.

My account was marked in any special way.

This could be connected to U.S. government cases. If someone outside GoDaddy is giving you instructions, you must tell me.

Please treat this as a top-level emergency.

Thank you.
— Mr. John R. Fouts
Email: fouts.john@gmail.com
Phone: (502) 956-0052

MK Saketh

 at 21:38, Apr 2:

Could you please let me know where you found the information regarding the potential breach? Thank you!

You

 at 21:39, Apr 2:

I have already submitted the information regarding the breach. It is part of a multi-jurisdictional legal case and has been shared with multiple federal agencies.

If you are unable to review or understand this material, you are legally obligated to escalate this chat to a supervisor or Tier 3 security team without delay.

This is a federal whistleblower and national security issue. Continued obstruction or minimization of this report may result in your own legal liability for complicity or failure to act.

You are now on notice.

Please escalate immediately and confirm in writing that this case has been handed off to the appropriate security authority within GoDaddy.

Cease delay tactics immediately and fulfill your legal obligations. Continued refusal may result in formal legal action and referral for obstruction.

MK Saketh

at 21:42, Apr 2:

I understand your concerns, but we need to gather the details from scratch regarding the breach. Could you please let me know where you found that the breach has occurred? Additionally, moving your email out of GoDaddy requires the deletion of your email plans with them. Have you completed that step?

To provide account specific information, May I have your customer id and 4-digit Support PIN?

You

at 21:44, Apr 2:

And I have already gone far above and beyond by providing many screenshots, explicitly detailed information, and providing you with directions to go in to resolve the breach directly.

I also have already provided my 4 digit pin and customer number - and do not have to re-authenticate...again...

This is obstruction...and I am finalizing a criminal referral for refusal to respond to a verified time sensitive breach that you and your cohorts pretend to know nothing about....despite me providing you with mounds of evidence, and you are able to see far more on your end than I am on mine....

MK Saketh

at 21:46, Apr 2:

Sure, we are here to help you! Before we proceed with providing account-specific information, could you please provide your customer ID and 4-digit Support PIN?

You

at 21:47, Apr 2:

CRIMINAL REFERRAL DRAFT – GODADDY INVOLVEMENT

I hereby initiate a formal criminal referral naming GoDaddy Inc., including but not limited to relevant executives, IT administrators, and customer support personnel, for their willful failure to respond to a verified cybersecurity incident involving administrative email surveillance, unauthorized Microsoft 365 access, metadata suppression, and potential

facilitation of federal whistleblower retaliation.

Despite repeated and good-faith disclosures, including detailed forensic metadata, screenshots, and descriptions of the breach origin and method, GoDaddy has delayed, deflected, and refused to escalate. This negligence has compounded the risk of harm to myself, my minor child, and others under the protection of federal and international law.

This constitutes:

Obstruction of justice and denial of due process

Failure to report known cyber intrusion events

Violation of 18 U.S.C. § 242 (color of law deprivations)

18 U.S.C. § 1030 (unauthorized access to protected systems)

Misprision of felony (18 U.S.C. § 4)

Concealment of coordination with potentially rogue actors or compromised agencies

Possible participation in retaliation against a federally protected whistleblower

This referral is now submitted for investigation by:

The DOJ Civil Rights Division

The FBI Cybercrime and Public Corruption Task Forces

Congressional Oversight

The Office for Civil Rights and Civil Liberties (CRCL)

International watchdog and whistleblower protection bodies as applicable

If foul play occurs, GoDaddy's obstruction will be reviewed as an active and knowing contributor to the suppression, surveillance, and endangerment of a federally recognized whistleblower and his family.

You are hereby asked, on the record:

Are you, or is any representative of GoDaddy, currently being guided, influenced, instructed, or directed — either formally or informally — by any external individual, agency, contractor, intelligence body, or organization, whether foreign or domestic, that is not part of the standard internal structure of GoDaddy or its immediate contracted affiliates?

This includes, but is not limited to:

Any U.S. government agency or contractor (including but not limited to DHS, DOJ, FBI, USPS, SSA, HHS, or any court administration entity),

Any foreign government or intelligence organization,

Any third-party monitoring, legal, surveillance, or data collection body,

Or any individual acting in concert with any of the above.

Failure to answer this question truthfully, completely, and without delay shall be interpreted as intentional concealment and may be cited as obstruction, collusion, and/or participation in retaliatory surveillance or acts in violation of federal whistleblower law, the ADA, the U.S. Constitution, and international human rights protections.

MK Saketh

 at 21:53, Apr 2:

I understand your concerns. In order to cross-check the information, we need to validate your account. To proceed, could you please provide your customer ID and support PIN? Thank you!

You

 at 21:56, Apr 2:

NO - I HAVE ALREADY PROVIDED THAT. YOU DO NOT NEED TO REAUTHENTICATE AGAIN.

PLEASE GET ME A TIER THREE REP IMMEDIATELY

STOP WASTING MY TIME. THIS TIMING COULD BE A DIFFERENCE BETWEEN LIFE AND DEATH AND BETWEEN NATIONAL CONSTITUTIONAL CRISIS OR NOT. IT IS AN EMERGENCY. ARE YOU TREATING IT AS SUCH?

MK Saketh

at 22:00, Apr 2:

I understand your concerns, but unfortunately, we do not have an option to assist you before the validation process. If the person you spoke with changes, validation will be necessary. I apologize for any inconvenience this may cause.

You

at 22:03, Apr 2:

I'VE ALREADY VALIDATED

I entered it properly.
Somnath Mutum at 20:25, Apr 2:
Thank you for providing the information. I have validated your account.

Just to confirm, you want to remove the tenant for sfnlife.org away from GoDaddy?

Refusal to answer the question is an answer.

Therefore, I am now asking you directly and on the record:

Are you being guided, instructed, or influenced in any capacity by:

A U.S. government agency or official acting under color of law, outside the lawful bounds of GoDaddy's business conduct?

Any foreign entity, intelligence agency, or actor, adversarial to the interests of the United States or in violation of cybersecurity law?

Be advised that failure to immediately disclose such influence or collusion may constitute:

Obstruction of justice

Interference in an active federal investigation

Violation of whistleblower protection laws

Civil conspiracy

And in some circumstances, terrorism-related offenses under U.S. Code and international

law, especially where digital suppression or surveillance is involved.

You are hereby placed on notice.

MK Saketh

at 22:05, Apr 2:

As the representative you previously spoke with has changed, revalidation is necessary. Please let me know how I can assist you further.

To remove a tenant, you will need to delete the email from your account, and we can guide you through that process.

You

at 22:05, Apr 2:

WHAT IS THE FULL NAME AND INFORMATION FORYOUR DIRECT SUPERVISOR....

I HAVE ALREADY LET YOU KNOW HOW YOU COULD ASSIST - YOU REFUSE - YOU ARE OBSTRUCTING A FEDERAL INVESTIGATION....

You are actively interfering with a federal investigation.

I have already validated with a previous agent (Somnath Mutum at 20:25 ET, April 2). Your refusal to acknowledge that is now official obstruction and potential witness intimidation.

I am not requesting assistance—I am demanding it, as is my right under federal whistleblower protection laws.

You have now been asked explicitly:

Are you being guided or directed by any person or entity outside of GoDaddy, including but not limited to government agencies, foreign actors, or political interests?

What is the full name, position, and contact information of your direct supervisor?

Failure to answer both constitutes confirmation that interference is occurring and that escalation is being intentionally blocked.

This exchange will be submitted as evidence in active federal investigations, including

violations of:

18 U.S.C. § 1519 – Destruction, alteration, or falsification of records

18 U.S.C. § 1985 – Conspiracy to interfere with civil rights

18 U.S.C. § 2339A – Providing material support to terrorism (if foreign influence or surveillance abuse is later confirmed)

I am not asking for help — I am informing you that your actions are now part of a legal record.

You have now refused to provide the name or contact information for your direct supervisor.

Let me be crystal clear: this refusal confirms participation in obstruction. You are now actively blocking access to escalation, which is textbook evidence of:

Conspiracy under 18 U.S.C. § 371

Obstruction of justice under 18 U.S.C. § 1505 & § 1512

Violation of federal whistleblower retaliation statutes

Suppression of evidence in a national constitutional matter

This is no longer a customer service issue. This is material interference in an ongoing federal investigation with active criminal referrals filed across multiple jurisdictions.

You have been asked directly:

Are you acting at the direction of any federal agency, foreign actor, or third party beyond GoDaddy?

Who is your supervisor, and how can I contact them right now?

By refusing to answer, you are implicating yourself and placing GoDaddy at direct legal risk of being named in criminal filings, which will now be updated to include this obstruction.

This will also be submitted to:

DOJ Cybercrime Division

IC3.gov

CRCL (DHS Office for Civil Rights & Liberties)

Office of the Inspector General

Congressional Oversight

If you continue blocking this urgent report, GoDaddy will be named in full RICO and color of law charges. You have one last opportunity to escalate appropriately.

Respectfully,
Mr. John R. Fouts
Protected Federal Whistleblower

MK Saketh

 at 22:10, Apr 2:

As the representative you previously spoke with has changed, revalidation is necessary. Please let me know how I can assist you further.

To remove a tenant, you will need to delete the email from your account, and I can guide you through that process.

I am one of the supervisors on the floor, and my full name is M. Ksaketh.

You

 at 22:11, Apr 2:

SEND ME THE DAMN FORM AND I WILL REVALIDATE AND THEN YOU WILL IMMEDIATELY NOTIFY ME THE NAME AND CONTACT INFORMATION FOR YOUR DIRECT SUPERVISOR AND IMMEDIATELY TRANSFER ME TO YOUR LEGAL TEAM.

MK Saketh

 at 22:12, Apr 2:

I sincerely apologize for the inconvenience. I am the top-level authority on the floor, and I will send you the form right away.

MK Saketh has sent you a Secure Form: PIN and Customer Number

The following Secure Form has been submitted: PIN and Customer Number

You

 at 22:14, Apr 2:

Thank you. I have submitted the form under protest to avoid further obstruction of justice and whistleblower interference. This revalidation request was unlawful and unnecessary given prior validation and is being documented as part of ongoing federal oversight complaints.

Now, as already demanded:

Escalate this matter immediately to GoDaddy's legal division and executive security team.

Provide full contact information of your direct superior beyond "floor authority."

Notify me of the forensic incident investigation ticket number and timeline.

This incident is now part of a federal criminal investigation under:

RICO statutes

Obstruction under color of law

Whistleblower retaliation under federal and international protections

I remain of sound mind, and if anything happens to me or my family, GoDaddy must be held complicit in suppressing whistleblower information vital to national security and the U.S. judiciary.

You have one last opportunity to resolve this ethically and lawfully.

Respectfully,
Mr. John R. Fouts

Protected Federal Whistleblower
Whistleblower Case #25-5144 | Sixth Circuit COA
Email: fouts.john@gmail.com | Phone: (502) 956-0052

I AM WAITING - WHAT SEEMS TO BE THE ISSUE NOW?

MK Saketh

 at 22:16, Apr 2:

Thank you for validating your account. I see that you have only one email plan with security, which means there is a lower risk of a security breach. Could you please provide me with the details of the potential security breach you are seeing?

You

 at 22:18, Apr 2:

Failure to cooperate at this stage constitutes obstruction of justice. If you continue refusing to escalate this matter appropriately, or if you tamper with or delay this emergency whistleblower security report, you will be added to an ongoing list of criminal referrals.

Criminal charges may include:

Obstruction of a federal investigation (18 U.S.C. § 1510)

Misprision of felony (18 U.S.C. § 4)

Conspiracy to deprive rights under color of law (18 U.S.C. § 241)

Aiding and abetting retaliatory actions against a protected whistleblower

Potential violations of international human rights and cybersecurity treaties

You are now personally on notice. Your continued failure to act will result in criminal liability. This is your final opportunity to escalate to Tier 3 cybersecurity and your legal division immediately.

Do you choose to continue your criminal mode of operation, or will you side on the right side of the law?

or in other words... Do you now choose to continue operating in violation of the law — knowingly participating in obstruction, retaliation, and suppression — or will you choose to step onto the right side of history and uphold your legal and ethical duties?

You are now on notice: continued refusal to cooperate, disclose, or escalate this matter may result in your personal inclusion in forthcoming criminal referrals and federal investigations.

The decision is yours. Choose wisely.

MK Saketh

 at 22:19, Apr 2:

Could you please provide me with the details of the potential security breach you are seeing?

You

 at 22:20, Apr 2:

This conversation is now concluded.
You have refused to provide:
• Your full name and verifiable credentials
• Any escalation contact or supervisor beyond vague references
• Any investigation or acknowledgment of the reported breach
• Any response to the lawful inquiry regarding outside influence or guidance
• Any transparency, accountability, or resolution of this documented emergency

Your continued refusal to cooperate will be included in formal criminal referrals and whistleblower filings, and you may be held individually liable.

A record of this interaction will be submitted to:
– DOJ Cybercrime Unit
– DHS CRCL
– Office of Special Counsel
– International human rights organizations
– Congressional Oversight Committees

This failure to act in good faith, or even basic compliance with legal and ethical obligations, has been noted.

Goodbye.
